

KASTHURI K

Full Stack Developer | Angular Developer | Frontend Developer | MEAN Stack Developer
Chennai, Tamil Nadu, India | kashthurimsc97@gmail.com | +919360599924

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 3+ years of combined professional and hands-on development experience in building scalable and responsive web applications using Angular 20, TypeScript, JavaScript (ES6+), Node.js, Express.js, MongoDB, Python, Django, and MySQL. Skilled in component-based frontend architecture, RESTful API integration, JWT authentication, and role-based access control (RBAC). Experienced in frontend development, backend API development, and database management with strong knowledge of modern web technologies. Recently enhanced technical expertise through an intensive Full Stack Development reskilling program (2025–2026) with practical project implementation. Passionate about developing efficient, user-friendly applications and contributing to agile software development teams.

TECHNICAL SKILLS

Frontend: Angular Version 20, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Responsive Web Design, jQuery, Cross-Browser Compatibility

Backend: Node.js, Express.js, Python, Django, RESTful APIs, JWT Authentication, Role-Based Access Control (RBAC), API Integration

Database: MongoDB, MySQL, Database Management, CRUD Operations, Query Optimization

Tools & Platforms: Git, GitHub, VS Code, Postman, Vercel, Netlify, Agile / Scrum

Concepts: MVC Architecture, Component-Based Design, Full Stack Development, Web Application Development, Debugging, Problem Solving

PROJECTS

Employee Management System

Tech Stack: Angular, Node.js, Express.js, MongoDB, JWT

- Engineered a production-grade full stack web application with Angular frontend and Node.js/Express.js REST API backend, supporting multi-role user management at scale.
- Implemented JWT authentication and role-based access control (RBAC) with Admin/User login flows, securing all API endpoints and enforcing least-privilege access.
- Developed complete CRUD operations for employee records with real-time dashboard analytics, delivering actionable insights through dynamic data visualizations.
- Built responsive UI components using Angular and Bootstrap, achieving mobile-first, cross-browser compatible layouts for seamless multi-device experiences.
- Integrated MongoDB database with optimized queries for data retrieval and configured auto-logout functionality to enhance application security.
- Deployed the full stack application to Vercel, demonstrating end-to-end ownership of the software development and deployment pipeline.

PROFESSIONAL EXPERIENCE

Company Name: Ek IT Solutions Pvt Ltd - Reskilling Program

Role: Full Stack Developer, Salem | Oct 2025 – Mar 2026

Technologies: HTML5, CSS3, JavaScript, Bootstrap, Angular, Django, Python, MySQL

Responsibilities:

- Completed an intensive Full Stack development program covering Angular 21, Node.js, Python, Django, MongoDB, MySQL, and modern JavaScript (ES6+).
- Built end-to-end web applications integrating Angular frontend with Django REST APIs and MySQL backend, demonstrating full stack development capabilities.

- Engineered responsive UI components using HTML5, CSS3, and Bootstrap for mobile-first, cross-browser web application development.
- Strengthened expertise in MVC architecture, RESTful API design patterns, database normalization, and software engineering best practices.

Company Name: Star Systems India Pvt Ltd,

Role: Associate Software Engineer

Client: VIT labs pvt lmt., Chennai | Dec 2022 – Oct 2023

Technologies: HTML5, CSS3, JavaScript, Bootstrap, Angular 13, Python, MySQL

Responsibilities:

- Developed and maintained enterprise-grade Angular 13 applications, building reusable component libraries and services that reduced development time by 30%.
- Integrated RESTful APIs using Angular HTTP Client, managing asynchronous data flows with RxJS Observables for real-time UI updates.
- Supported Python-based backend services, resolving cross-functional integration issues between client-side development and server-side modules.
- Participated in Agile/Scrum sprints — contributing to code reviews, sprint planning, and daily stand-ups in a cross-functional engineering team.

Company Name: Hakuna Matata Solutions Pvt Ltd.,

Role: Associate Software Engineer

Client: Mearsk, Chennai | Feb 2022 – Oct 2022

Technologies: HTML5, CSS3, JavaScript, Bootstrap, Angular 13

Responsibilities:

- Engineered web application features using Angular 13, translating UI/UX wireframes into responsive, pixel-perfect functional interfaces.
- Developed reusable Angular components and services, improving code modularity and cutting feature delivery time across the development team.
- Optimized application performance through debugging, unit testing, and code refactoring, maintaining stability and speed across production releases.

Company Name: Biovus Blockchain Technologies Pvt Ltd.,

Role: Project Engineer

Client: Biovus Blockchain Technologies Pvt Ltd., Salem | Jan 2021 – Jan 2022

Technologies: HTML5, CSS3, JavaScript, Bootstrap, PHP, MySQL

Responsibilities:

- Designed and developed a job portal web application using PHP, HTML5, CSS3, and JavaScript, serving as an early foundation in full stack web development.
- Built and maintained MySQL database schemas; authored optimized queries for efficient data retrieval, reporting, and backend data management.

EDUCATION

Master of Science (M.Sc.)

Periyar University, Salem, Tamil Nadu | Jul 2019 – May 2021

CERTIFICATIONS & TRAINING

- Full Stack Web Application Developer — Angular, Node.js, Python, Django, MongoDB, MySQL (Ek IT Solutions, 2025– 2026)
- Best Valuable performer — Biovus Blockchain Technologies Pvt Ltd.,
