PROFILE SUMMARY

Frontend Developer with 2.8+ years of experience designing, developing, and maintaining responsive, scalable, and high-performance web applications using Angular, TypeScript, JavaScript, HTML5, CSS3, Bootstrap, and Angular Material. Skilled in REST API integration, RxJS, reusable component development, responsive web design, and frontend performance optimization. Experienced in delivering enterprise applications across logistics, blockchain, e-commerce, and business management domains. Strong understanding of Agile/Scrum methodologies, component-based architecture, software development lifecycle (SDLC), and cross-functional collaboration. Foundational knowledge of Node.js, Express.js, and MongoDB. Available to Join Immediately.

TECHNICAL SKILLS

Frontend: Angular (13+), TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS, Bootstrap, Angular Material UI

Backend: Node.js, Express.js, Django, Python

Database: MongoDB, MySQL

State Management & APIs: RxJS, REST APIs, HttpClient

Tools: Git, GitHub, Postman, VS Code, Vercel, Netlify

Methodologies: Agile, Scrum, SDLC, Code Reviews, Sprint Planning

Concepts: Authentication Flows, Component-Based Architecture, Single Page Applications (SPA), Debugging, Form Validation, Frontend Optimization, Responsive Web Design, REST API Integration, Routing, Lazy Loading.

WORK EXPERIENCE

Star Systems India Pvt Ltd

Dec 2022 - Oct 2023

Associate Software Engineer

Chennai

- Developed and maintained scalable enterprise web applications using Angular 13, TypeScript, JavaScript (ES6+), HTML5, CSS3, and Bootstrap, delivering high-performance and responsive user interfaces.
- Designed and implemented reusable, component-based UI libraries, reducing code duplication by 30% and accelerating development efficiency across multiple projects.
- Integrated RESTful APIs using Angular HttpClient and managed asynchronous data flows with RxJS Observables, enhancing application responsiveness and data handling.
- Collaborated closely with backend developers to define API contracts, optimize data exchange, and resolve end-to-end application issues.
- Participated in Agile/Scrum development processes, including sprint planning, daily stand-ups, retrospectives, backlog grooming, and peer code reviews.
- Utilized Git-based version control workflows, including branch management, pull requests, and code reviews to maintain high code quality standards.

Hakuna Matata Solutions Pvt Ltd

Feb 2022 - Oct 2022

Associate Software Engineer

Chennai

- Developed and maintained responsive, enterprise-scale frontend modules for Maersk's logistics and supply chain platform using Angular, TypeScript, JavaScript, HTML5, CSS3, and Bootstrap.
- Designed and implemented reusable Angular components, services, and shared modules following component-based architecture principles, improving application scalability and maintainability.
- Enhanced frontend application performance through code refactoring, lazy loading, module optimization, and efficient Angular change detection strategies.

- Participated in Agile/Scrum ceremonies including sprint planning, daily stand-ups, backlog refinement, retrospectives, and code review sessions.

Biovus Blockchain Technologies Pvt Ltd **Software Engineer**

Jan 2021 - Jan 2022
Salem

- Developed responsive and interactive web applications using HTML5, CSS3, JavaScript (ES6+), and Bootstrap, delivering seamless user experiences for blockchain-based platforms.
- Designed and implemented user-centric frontend interfaces based on product requirements and UI/UX design specifications, ensuring accessibility and usability best practices.
- Integrated RESTful APIs and collaborated with backend development teams to enable secure data exchange, feature implementation, and real-time application functionality.
- Built responsive, mobile-first web pages optimized for desktop, tablet, and mobile devices, ensuring cross-browser compatibility across Chrome, Firefox, Safari, and Edge.

PROJECTS

Employee Management System

Technologies: Angular, TypeScript, Bootstrap, Angular Material, Node.js, Express.js, MongoDB, JWT Authentication

- Developed a full-stack Employee Management System with Role-Based Access Control (RBAC), enabling secure management of employee records and user permissions.
- Built responsive and scalable dashboard modules using Angular, TypeScript, Bootstrap, and Angular Material, ensuring seamless user experience across all devices.
- Designed and implemented reusable Angular components, services, reactive forms, and shared modules, improving application maintainability and development efficiency.
- Integrated RESTful APIs for employee CRUD operations, real-time data updates, search functionality, and secure data management with robust error handling.
- Implemented JWT-based authentication, authorization, route guards, and reactive form validations to enhance application security and user access control.
- Optimized frontend performance through lazy loading, modular architecture, and component reusability while following Agile/Scrum methodologies and Git-based version control.

EDUCATION

Master of Science (M.Sc.) – Computer Science
Periyar University, Salem

Jul 2019 - May 2021

CERTIFICATIONS

Full Stack Web Development Training
Ek IT Solutions Pvt Ltd, Salem

Oct 2025 - Mar 2026

AWARDS & RECOGNIZATION

Best Valuable Performer Award
Biovus Blockchain Technologies Pvt Ltd, Salem

Jan 2022
